

We make things happen

"We make affordable and available CleanTechs, anywhere, anytime, for everyone. We develop disruptive technologies that make life easier and smarter."

## VISION

## TIMELINE

## WEST & EAST

### Aton Energy Europe

Our team uses an innovative model that drives down clean tech infrastructure prices and paves the way for its rapid deployment.

### Aton Energy Asia

Our strong manufacturing capability and solid partnerships, we are able to supply the best innovative technologies to the European market.

# Renewable Energy Pioneer

What we do

Aton Energy is a globally active Renewable and CleanTech company in Solar, Energy Storage, Energy Management and Internet of Energy. As an innovative pioneer, Aton Energy thinks ahead and commits to a better environment with an integrated approach from manufacturing, developing and financing sustainability solutions.

## DEVELOPER

We have designed megawatts of solar plants to maximise energy output

We ensure our projects deliver the maximum financial results.

Our utility-scale solar parks have produced over billion of kilowatt hours of clean electricity to date, and counting.

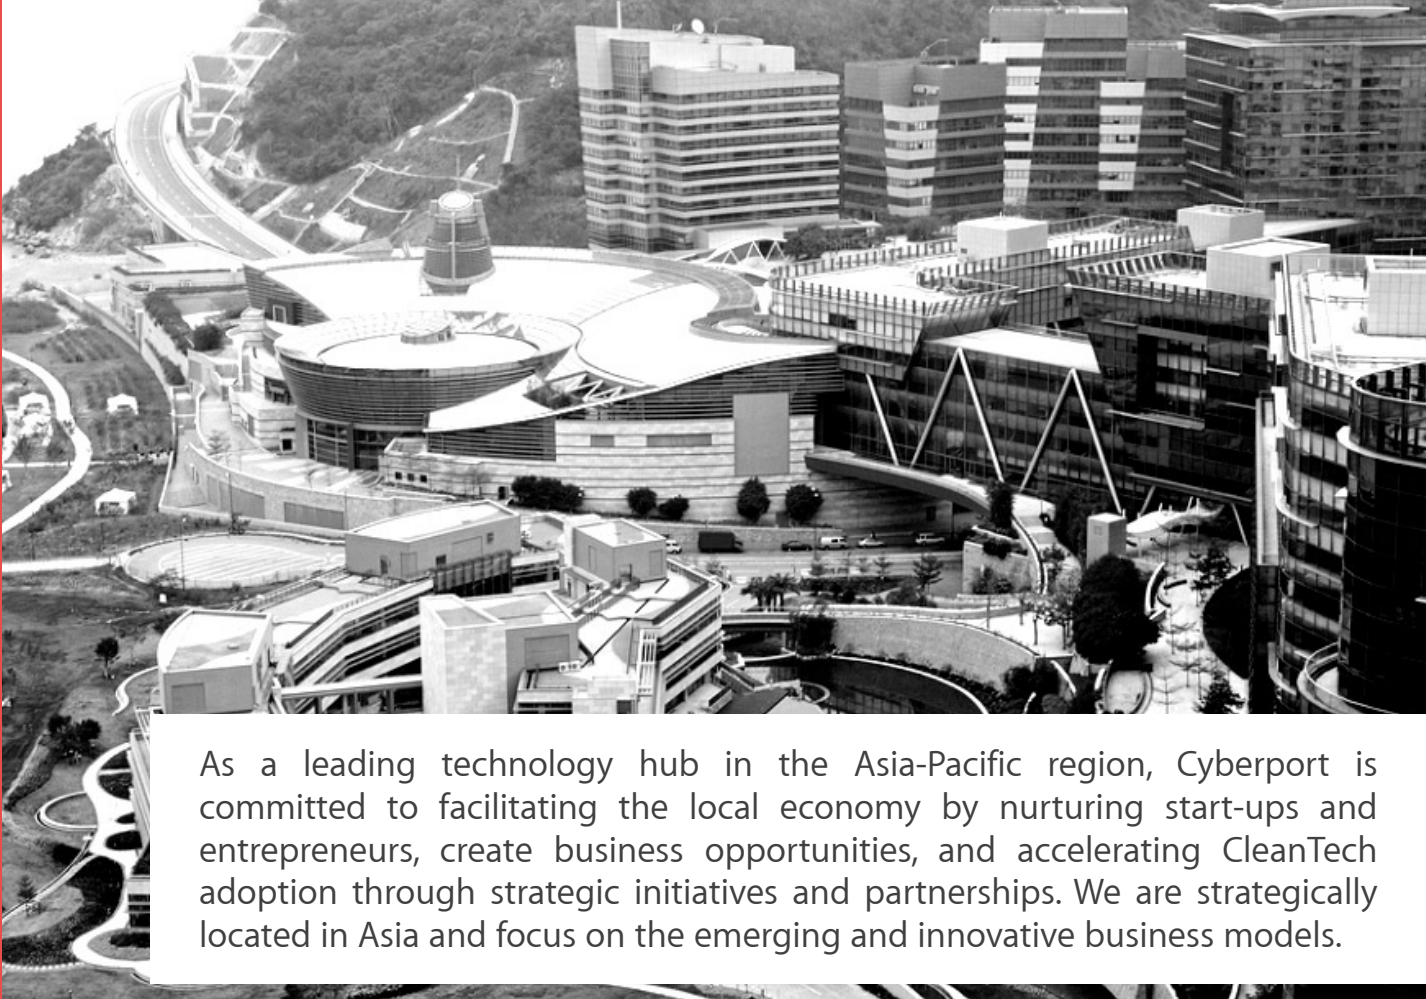

## INNOVATOR

We create energy for our everyday life from clean sources, or that we store for a better usage, or we dispatch in clever ways to energise our World.

We are also the energy that encourages us to think different, to build and develop new products to live a better Life.

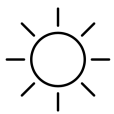

As a leading technology hub in the Asia-Pacific region, Cyberport is committed to facilitating the local economy by nurturing start-ups and entrepreneurs, create business opportunities, and accelerating CleanTech adoption through strategic initiatives and partnerships. We are strategically located in Asia and focus on the emerging and innovative business models.

## FOCUS

### TECHNOLOGY

#### SOLAR POWER

Photovoltaic

#### ENERGY STORAGE

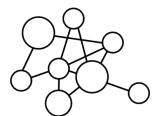

Lithium battery

#### ENERGY MANAGEMENT

Hardware

#### INTERNET OF ENERGY

Software

### OPPORTUNITY

Reduce CO2 emissions  
Become self-sufficient  
Bring electricity to everyone

Grid support & stability  
Become self-sufficient  
Clever usage of electricity

Reduce energy bills  
Intelligent use of energy  
Smart grid

Energy sharing  
Big datas  
Smart city

### REVENUE

\$0.3 trillion  
in 2025

\$0.6 trillion  
in 2025

\$2.3 trillion  
in 2025

\$6.2 trillion  
in 2025

# Working on the next big things?

We love challenging collaboration that allows everyone to contribute: a college student, an energy start up, and a global multi-national industrial partner.

Aton Energy is constantly looking for new ideas in the area of:

- Improvement of products
- Improvement of technologies
- Suggestions for new products
- Partnership to develop new markets

Shoot us with your innovative idea
